

RFP ATTACHMENT B

PRICE SCHEDULE (Rev.1 date 5/6/11)

Respondents must submit prices based on contract terms of 5 or 10 years.

Pricing Option A is completed if the Respondent wishes to limit the types of materials accepted to those listed in question 4 of the proposed plan section. Pricing Option B is completed if the Respondent intends to accept all the items as described in section 2, "Acceptable Items." Respondents may complete either or both price matrix.

OPTION A - LIMITED MATERIALS ACCEPTED

BASE COST PER TON (Limited Materials Accepted)

Prices in this matrix allow the Respondent to restrict the items they will accept for composting. The "Proposed Plan" should identify which items will and will not be acceptable from the first day of operations, estimated to be August 2011. Please enter the base cost per ton of Organic Material (including a contamination rate of up to 20%) delivered to the Respondent based on the contract term:

Table 1: Cost per Ton (limited materials)

Contract Term	0 – 35,000 tons	Over 35,000 tons
5 Years		
10 Years		

CONTAMINATION SURCHARGE (Limited Materials Accepted)

Please enter the cost per ton surcharge on Organic Material delivered to the Respondent based on a contamination rate in excess of 20% (this surcharge is in addition to the Base Cost per Ton listed above).

Contamination Rate	Cost per Ton Contamination Surcharge	
	5 Year Term	10 Year Term
Over 20%		

OPTION B – ALL MATERIALS ACCEPTED

COST PER TON (All Materials Accepted)

Prices in this matrix require the Respondent to accept all the items listed as "Acceptable Items," from the first day of operations, estimated to be August 2011. Please enter the cost per ton of

Organic Material (including a contamination rate of up to 20%) delivered to the Respondent based on the contract term:

Table 2: Cost per Ton (all materials)

Contract Term	0 – 35,000 tons	Over 35,000 tons
5 Years		
10 Years		

CONTAMINATION SURCHARGE (All Materials Accepted)

Please enter the cost per ton surcharge on Organic Material delivered to the Respondent based on a contamination rate in excess of 20% (this surcharge is in addition to the Base Cost per Ton):

Contamination Rate	Cost per Ton Contamination Surcharge	
	5 Year Term	10 Year Term
Over 20%
